Kerim Berdimyradov / Lead Frontend Engineer

+375336168851 • kerim@berdimyradov.com • https://www.berdimyradov.com/

SUMMARY

Lead Frontend Engineer with 10+ years building web and mobile products in fintech, marketplaces, and consumer apps. Led frontend delivery for a 5-person product team and standardized the stack, CI/CD, and engineering practices across a 10-engineer department. Hands-on with React, React Native, Next.js, and TypeScript, with experience in frontend architecture, shared platforms, design systems, and release planning.

SKILLS

Team Leadership, Frontend Architecture, Release Planning, Engineering Standards, Design Systems, Code Review & Onboarding, Cross-functional Delivery, CI/CD, Monorepos, React, React Native, Next.js, TypeScript, Feature-Sliced Design

PROFESSIONAL EXPERIENCE

Independent Software Engineer

Dec 2025 - Present

Independent engineering across AI, fintech, and web/mobile products.

TypeScript, React Native (Expo), NestJS, Docker, OpenAI API

Software Engineer · Finloft

- Worked directly with the startup founder, who served as the business stakeholder and domain expert, to clarify requirements, independently define technical solutions, and implement them across the mobile app and backend.
- Delivered registration, email OTP and password recovery flows, and secured NestJS client APIs with JWT, ownership checks and DTO validation, using shared typed contracts consumed by the Expo app.
- Built and maintained a pnpm monorepo spanning Expo React Native mobile and NestJS backend services.

Electronic Systems and Services

Aug 2024 - Nov 2025

Software company focused on fintech, payments, and AI.

TypeScript, Next.js, React, GitLab Pipelines, GitHub Actions

Lead Frontend Engineer · TwinFaces · On Shelves

- TwinFaces: Owned the TwinFaces roadmap and release process, authored release notes, coordinated delivery, and led planning and prioritization for 100% on-time sprint delivery within a +/-10% variance.
- TwinFaces: Owned frontend architecture across a monorepo, shared UI kit, env-specific routing, and runtime configuration for multi-tenant builds.
- TwinFaces: Established PR standards, code review practices, and onboarding documentation to improve delivery consistency.
- On Shelves: Led a 5-person frontend team to deliver MVP in 4 months, enabling merchants to manage 5+ marketplaces from a single interface.

Frontend Department Lead

- Standardized the frontend tech stack and CI/CD across a 10-engineer department, introducing a reusable pipeline that executed 20% faster than legacy project-specific pipelines.
- Simplified cross-project onboarding by establishing a consistent set of frontend tools and enabling developers to reuse and independently configure the same CI/CD pipeline.

Finstek Limited

Dec 2023 - Aug 2024

Trading technology provider offering execution, risk management, and brokerage platforms.

TypeScript, React Native, Expo, MobX

Senior React Native Developer · The Edge

- Led the React Native codebase migration to Feature-Sliced Design, establishing more modular feature boundaries.
- Launched Social Copying functionality to support trader engagement and social trading workflows.
- Integrated multiple payment service providers to improve deposit reliability and payment coverage.

Fractal Ltd.
Apr 2023 - Aug 2023

Financial tools for Web3 businesses, DAOs, and freelancers.

TypeScript, React, Tailwind, Netlify

Lead Engineer · Fractal

- Led a 3-person team from initial development through the on-schedule delivery of the Fractal MVP.
- Established the application architecture and built the initial product for a financial platform serving Web3 businesses, DAOs, and freelancers.
- Implemented OAuth login and managed deployment pipelines for production delivery.

Social Discovery Group
Mar 2020 - Aug 2022

Global technology company building dating and social discovery products.

TypeScript, React, React Native, Jenkins

Senior React / React Native Developer · Magnet: Chat, Play & Flirt · Dating.com

- Magnet: Chat, Play & Flirt: Refactored admin workflows, reducing manual effort and streamlining moderation operations.
- Dating.com: Refactored the codebase to support rollout of multiple look-alike apps from a shared foundation.

Ciklum
Sep 2018 - Mar 2020

International software development and IT outsourcing company.

TypeScript, Angular, Bitbucket Pipelines, Trunk-Based Development

Senior Frontend Developer · Coople

- Led a two-developer Vue pilot, delivering new landing pages while evaluating the framework for future frontend development.
- Worked in a trunk-based development workflow, using feature flags to decouple deployment from release and support incremental delivery.

Elinext
Jun 2016 - Sep 2018

International software development group.

TypeScript, Angular, Node.js, AWS

Fullstack Developer · E-Commerce Project · Patientgate.tv

- E-Commerce Project: Delivered customer-facing and server-side features for an online store with customizable products.
- Patientgate.tv: Broke down user stories into tickets, estimated work, and delivered the MVP client application.

iSolutions
Sep 2015 - Jun 2016

Startup developing tools for photography workflows.

JavaScript, Angular.js, PHP, Symfony-PHP, MySQL

Fullstack Developer · WeHands

- Built end-to-end marketplace features connecting photographers with retouchers.

EDUCATION

Belarusian State University of Informatics and Radioelectronics
2015 - 2016

Master of Engineering Sciences, Minsk, Belarus

Baranovichi State University
2010 - 2015

Engineer-programmer, Baranovichi, Belarus

Redwood High School
2008 - 2009

Senior year (exchange student), Visalia, California, USA

LANGUAGES

Turkmen (Native), Russian (Fluent), English (C1)
