## PROFILE SUMMARY

Senior Frontend Engineer & Lead with 10+ years building web and mobile products. Deep in React/React Native, Next.js and TypeScript; shipped payments, marketplaces, and real-time video at scale. I define frontend architecture (FSD, monorepos, micro-frontends) and set standards and CI/CD to ship faster with fewer regressions.

## EDUCATION

#### BSUIR 2015 - 2016

Minsk, Belarus

Master of Engineering Sciences

## **BARSU** 2010 - 2015

**P** Baranovichi, Belarus

Engineer-programmer

## **REDWOOD H.S.** 2008 - 2009

Visalia, California, USA

Senior year (exchange student)

## SKILLS

Web Dev Mobile Dev

## **WORK EXPERIENCE**

## **Electronic Systems and Services**

Aug 2024 - Present

Development Team Lead

- Planned releases, groomed backlog, and maintained 100% on-time sprints (variance ±10%).
- TwinFaces (ERP): As TL (2 devs + me), doubled PR throughput (19
   → 40/month), closing 279 PRs in 7 months vs 155 in prior 8.
- On Shelves: Led FE team (4 devs + me) to ship MVP in 4 months, enabling merchants to manage 5+ marketplaces (Amazon, Allegro, etc.) from one interface.
- Dept Lead (10 devs): Unified tech stack and CI/CD  $\rightarrow$  +20% delivery speed; ran knowledge-sharing (80% adoption).
- Company-wide: Built assessment system foundation, handed over for completion at contract end.

## 「 Finstek Limited

Dec 2023 - Aug 2024

Senior React Native Developer

- Social Copying: Launched feature → +20% trader engagement.
- Payments: Integrated multiple PSPs → +12% successful deposits.
- China push: Enabled notifications in CN → +7% turnover.
- FSD migration: Reduced regressions; improved modularity.

#### [각 Fractal Ltd.

Apr 2023 - Aug 2023

Frontend Team Lead

- Built app from scratch; delivered design system (≈20% faster feature delivery).
- Added OAuth login; managed deploy pipelines; led 3-person FE team to ship MVP on time.

## [각 Social Discovery Group

Mar 2020 - Aug 2022

Senior React Native Developer

- Shipped features for **Magnet/BamBam/Dating.com**; released apps in 70+ countries.
- Built video/VoIP + push ( ↑ retention); refactored admin tools (-20% moderation time); enabled multi-app rollout.

## **WORK EXPERIENCE**

 [2] Ciklum
 Sep 2018 - Mar 2020

Senior Frontend Developer (Web)

- Delivered web features in Angular/TypeScript during migration to microservices.
- Implemented geo/scheduling UI and stabilized CI/release flows.
- Coordinated with a small service team and participated in code reviews.

Full Stack developer

- Shipped features across 6 products in e-commerce, healthcare, media, and automotive, multi-stack delivery (Angular/Node, PHP/Zend, AWS) with quick onboarding.
- Delivered Elasticsearch search & indexing, a real-time telemetry dashboard (WebSocket), and a mobile POC.
- Standardized deploy/release pipelines and handled story breakdown, estimates, testing, and maintenance.

Sep 2015 - Jun 2016

Full Stack developer

- WeHands (marketplace): Built core features end-to-end (Symfony + Angular.js) connecting photographers with retouchers.
- Designed REST APIs with Doctrine entities; implemented auth, profiles, posting/applications, and messaging.
- Deployed on Apache/Debian; contributed to MySQL schema/migrations and basic test coverage.
